

Technical Advantages

Production Quality

The dust-free anti-static workshop plays an important role in the production process of small-pitch SMT. With the application requirements of the LED video display market from small to small, the production process of small-pitch LEDs is becoming more and more refined to ensure product stability and reliability.

In order to better improve product quality, our company operates a brand-new dust-free anti-static work floor.

Black LED VS Conventional LED

Conventional LED

The Wall

Ultra-low reflection
black technology

An exceptionally black base plus ultra-low reflection black technology deliver pure black for unparalleled contrast and detail.

Black LEDs Advantages

- ✓ High contrast ratio, extreme vivid colors and blacks.
- ✓ Non-reflective, display colors are more realistic.
- ✓ Soft light and protects viewer's eyes.
- ✓ Improving image quality, the images are more clear.
- ✓ Low power consumption and energy saving.
- ✓ Perfect and stable display performance.
