

Wide spectrum of LED display solutions

MDSdisplays.com

Superior Image Quality & Innovation

Over 10 years of experience, R&D, developing and manufacturing LED Display products. Black LED – High Gamma spectrum – Brilliant colours – High Refresh rate, are just a few highlights. MDS “Rental version” LED Displays contrast ratio arrive at 8000:1 and the P1.56 arrive at 10,000:1.

Global Installed base: Between 300'000 to 400'000 square meters LED Displays

Market leader

Black LEDs, GOB and COB technology, outdoor energy saving technology, MDS is one of few, offering this technology. We invest great effort and funding in R&D for new innovative products according to market demand.

Market stability & reliability

Stable and reliable raw material supply chain.

Production capacity is around 3000-4000 square meters per month.

Professional OEM and ODM ability.

Planning and advice assistance

Experienced experts plan and suggest best solution for your individual projects.

Turn Key solutions with competitive pricing structure

Complete package with spare Modules, PCB, cables, brackets and accessories

Wide product palette

Innovative indoor and outdoor solutions for virtually any dimension and application.

Superior Service

24/7 support if available - 48 Hour Reaction for replacement parts via Major global forwarders.

Technicians on call, with key milestones of Installation.

Company Profile

MDS Display Limited

MDS DISPLAY LIMITED is engaged in the research, development, manufacturing and sales of LED Display products. Based on the concepts "**Customer first, Quality is the base and Service improves the value**".

Our products lead the market, through rich expertise in research and developing led display products.

Our R&D engineers possess over 10 years of rich experience in the led display industry. MDS offers excellent and professional service and help you to realize your projects, beyond your satisfaction.

MDS Displays introduced the industry's most advanced and sophisticated production facilities, with strict quality management. Therefore, we can ensure our product quality and fast delivery.

24/7 service, you are welcome to contact us at any time needed.

SMT Workshop

MDS Display Limited

In order to better improve product quality, our company operates a brand-new dust-free anti-static work floor.

The dust-free anti-static workshop plays an important role in the production process of small-pitch SMT. With the application requirements of the LED video display market, from small to small, the production process of small-pitch LEDs is becoming more and more refined to ensure product stability and reliability.

Our Factory

MDS Display Limited

To operate an entire dust-free production area, we adopted highest standards and strict management methods, to get all the advantages of operators and high-end production equipment.

Our Factory

MDS Display Limited

Small-pitch products demand extremely high specifications on the efficiency and accuracy of the placement machines. We facilitate a new type of high-speed placement machines throughout the whole line, which fulfill these requirements.
